

Meeting Date: January 6, 2020

Participants: Jay Alameda, Rosalia Gomez, Aaron Weeden

Notes:

1. Program Updates
 - a. XSEDE EMPOWER – Currently selecting/matching students for Spring 2020. Aaron hopes to notify selected students next week. The [application for Summer 2020](#) closes on February 28, 2020. Recruiting emails coming soon (an extra push). We will continue promoting and recruiting via our lists, at the ERN Conference, and during our next visit to CSULA.
 - b. C4C/ACSC – Proposal to co-locate ACSC at PEARC20 was submitted. The [application](#) closes on March 1, 2020. ACM SIGHPC has also given us the green light to open application for Computing4Change (C4C) at SC20. Rosie will provide a timeline for C4C recruitment and selection during our next call. She will know more after the C4C committee call.
 - c. International HPC School – Program highlights and link to application were shared before the holiday break. The [application](#) closes on January 27, 2020. It will be interesting to compare 2019 and 2020 application data, particularly number of applicants, to determine effectiveness of leveraging BP program efforts.
 - d. No update from Student Campus Champions.
2. Leveraging XSEDE BP efforts
 - a. ERN Conference Exhibiting – February 6-8, 2020. Rosie (or new SURA hire (Valerie) who will support BP program) will request flyers from XSEDE community soon.
 - b. Training at CSULA – We had a call with CSULA before the holiday. XSEDE New User Training for proctors and new XSEDE trainers (Ag, Rosie, Elliott, Aaron) was scheduled for 2/14, a week before the onsite training at CSULA. We are excited!
 - c. AUCC Training in Atlanta – 1/9-1/10. Jay provided an update: quick turn-around with regard to planning; high-demand and level of excitement; training targets faculty. Rosie suggested sharing the list of student programs electronically with faculty for dissemination.
3. Code of Conduct
 - a. During our last CEE call, Linda Akli requested that updates approved during the last XSEDE quarterly meeting be reflected on the XSEDE website.
4. Additional Items (updates since our call)
 - a. Dana Brunson will join the XSEDE Student Programs Call starting next month. She has been added to the listserv.
