

CEE Broadening Participation and Workforce Development
3/24/2020 Call Notes

Participants: Linda Akli, Jay Alameda, Rosie Gomez, Valerie Herold, John Holly, Susan Mehringer, Aaron Weeden

Agenda, discussion and actions:

1. PY10 Planning
 - a. Reminder that PY10 Planning input is due to Linda today by close of business so she can review and reiterate if necessary before submitting by Friday 3/27
 - b. Should be similar to what is already in the planning spreadsheet located at
 - c. Aaron shared the PY9 plan link for those who wanted to know what they submitted last year.
2. Conferences
 - a. PEARC20 – not cancelled by exploring virtual option. Will wait a few weeks before making decisions on ACSC faculty and student workshop. Most students and faculty consumed with the campus closures and moving to online instruction.
 - b. Tapia, GHC20, SACNAS, SC20 – continue to monitor
3. Communications Items
 - a. ACSC Deadlines – Send reminder on Wednesday submissions close in one week and the another one next week. Continue to monitor with expectation the application rate will be slow and more limited due to COVID-19 uncertainties.
 - b. Online teaching resources – send information to Valerie for submission to the Inside XSEDE (due Wednesday 3/25) and for posting on the WIKI or XSEDE website and sending to the MRC listserv.
4. Workshops
 - a. CSULA NASA Direct STEM Updated Delivery Plan – will convene a call to work on materials this week since waiting until Kate is better doesn't leave enough time to have CSULA review materials and distribute assignments. Aaron is available to help with working on content even though not available to proctor on April 18.
 - b. AUCC Data Science Initiative – Linda sent email offering small group online discussions to assist with curriculum development to Bettina and Todd but no response.
 - c. Computational Chemistry for Educators New Paltz, NY scheduled for June. Aaron will discuss with Shawn Sendlinger and/or Kate. Needs to be re-evaluated for possible remote delivery.
 - d. Parallel Programming curriculum workshop at Michigan State University scheduled for June is being reconsidered for remote delivery. Aaron is working with Dirk Colbry.
 - e. CSUSB Webinar – CSUSB requested that this be rescheduled for May. Rosie working to identify new dates.
 - f. Jay Alameda asked for assistance in adapting the International HPC Summer School to remote delivery. Susan and training team will address allocating resources with Jay.
5. Contingency Planning Survey

- a. Completed workforce development as a group and appointed Susan as the deputy.
- b. Completed broadening participation responses as a group and appointed Rosie as the deputy.
- c. Linda will update Wiki to reflect deputies.
- d. Susan will work with Tom Maiden to provide wording on the change in delivery of the monthly HPC workshop series for the Wiki and provide to Linda.
