- [Amit Chourasia](#)
- [Sudhakar Pamidighantam](#)
- [Marcela Madrid](#)
- [Bryon Gill](#)

Goals

- Activity review.

Discussion items

Time	Item	Who	Notes
5 minutes	Welcome	Sergiu Sanielevici	
10 minutes	L2 update	Philip Blood Sergiu Sanielevici	<ul style="list-style-type: none">• November to January activity reports: please respond to this survey https://forms.gle/ETRW8BmPM81DAjaKA if you haven't already.• ECSS monthly symposium volunteer speakers needed for April and later (Kelly Pierce has volunteered for a full hour on 3/16 - be sure to attend!)• NSF 21-555 (services) and NSF 21-556 (coordination) announced today: solicitations for the successor program to XSEDE. https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505866• Start planning: https://pearc.acm.org/pearc21/call-for-participation/
35 minutes	Activity update	All	<p>Sudhakar Pamidighantam - what ECSS assistance does Eric Morgan need in the next phase of his Distant Reader project? Needs backend software implementation support on Jetstream (2). Sudhakar will check.</p> <p>Lisa Lowe and Davide Del Vento have you spoken about the Tian Di ECSS request? Seems lightweight NIP consulting will suffice.</p> <p>Please update https://docs.google.com/spreadsheets/d/1bHPLOAv8Zop5pHMG2ef_LDz7M5evBpJe4nb3E0jBC6k/edit?usp=sharing</p> <p>Lisa Lowe : potential project to research visualization software to be used for a machining tool. Can such a project get ECSS assistance? Amit Chourasia and Sergiu Sanielevici say yes, absolutely, if the team obtains a Startup allocation on some XSEDE resource that can hold the data to be visualized. NIP lightweight consulting is on offer in any case.</p>
5 minutes	Wrap-up	All	Next meeting: February 8.
