

WBS 2.3.2 RACD Evaluations

The XSEDE Technology Investigation Service (TIS) team was an XSEDE1 group dedicated to evaluating technologies for XSEDE. In XSEDE2, the TIS team was merged with RACD and to date we have not done many evaluations. Since we are a smaller team and performing evaluations as needed (rather than as a dedicated function), we will use the below TIS templates and guidelines as a starting point and adjust them as needed for our smaller efforts.
