

WBS 2.3.2 RACD Requirements Analysis & CDPs

- Requirements Gathering
 - Community Engagement & Enrichment (CEE)
 - Extended Collaborative Support Services (ECSS)
 - (Infrastructure) Service Providers (SPs)
- Requirements Prioritization
 - PY1 priorities
- Requirements Analysis
 - PY1 CDPs

Requirements Gathering

RACD engages with the following entities to gather requirements and prepare use cases.

Engagement should include introducing RACD's missions, services, and processes, plus periodic review of ongoing activities.

Community Engagement & Enrichment (CEE)

Requirements source	Existing and potential user contact thru tickets, educational events, and campus engagement
Point of contact	Chris Hempel
Related material	n/a

Extended Collaborative Support Services (ECSS)

Requirements source	Existing XSEDE ECSS allocated projects
Point of contact	Nancy Wilkins-Diehr
Related material	

Community Software Providers (including SaaS)

Requirements source	Local users and opportunities that arise from distributing software to users
Point of contact	
Related material	

(Infrastructure) Service Providers (SPs)

Requirements source	First hand support of local users and from opportunities that arise from infrastructure integration challenges
Point of contact	SPs can contact RACD directly
Related material	

Requirements Prioritization

The UREP helps us set requirements analysis and capability integration priorities.

PY1 priorities

Fill in PY1 priority details.

Requirements Analysis

We analyze requirements by preparing Capability Delivery Plans (CDPs) for Use Cases.
