

20210622- Panel Session: Community Impact & Science Use Cases

Decisions:

N/A

Action Items:

N/A

Notes/ Discussion items:

(Sergiu): Comment from Phil: "I am going to add one or two slides on Brian Couger and Chris Mason and their high-profile Cell and Science covers culminating 10 years of collaboration with XSEDE, but I didn't have a chance to do this yet. I'll add before next Monday, and incorporate other feedback, and then run through it all next Monday prior to the review."

- [Sergiu Sanielevici Philip Blood](#) In slide touting new SPs that have been added this year, also note that additional new SPs are coming
- [Philip Blood](#) to add slide (between 22 & 23?) on bioinformatics, particularly 2 projects recently featured in Science and Nature
- [Kelly Gaither](#) will update Broader Community Impacts slide (last slide)
- [Sergiu Sanielevici Philip Blood](#) Remove divider slides, e.g., "Biological sciences", "History and AI"
- [Sergiu Sanielevici Philip Blood](#) Slide 10: Astronomers define "metals" differently than others - anything heavier than Helium is a metal. Find definition of "giga-metal"
- [Sergiu Sanielevici Philip Blood](#) Slide 21?: COVID-19 allocations should mention all who volunteered as reviewers. [John Towns](#) could also add this to his slides to recognize the number of staff who served in this way.
- [Sergiu Sanielevici Robert Sinkovits](#) All examples provided are from major research institutions - add examples from institutions that are not MRIs, but more focused on teaching
