

20180607- XSEDE Developer Coordination Council

Decisions:

Summary	Description

Action Items:

Summary	Description	Responsible	Due Date

Notes/ Discussion items:

- RDR improvements and content updates in the next quarter. JP suggested that Victor Hazelwood could help with this effort because he maintains an SP checklist.
- Resource selector- why doesn't ECSS show up as an allocated resource? Some level 3 SPs may not be showing up properly. Need to address this.
- XCI Prioritization:
 - TFA for adding users to projects and editing profiles... needs to be discussed in greater length by all groups involved.
 - 1, 4, 5, 6- XCI can facilitate
 - 3- XCI to work with SP forum to see how many SPs can do this... Maytal suggests starting with back-end (finding out what can be done) then having RAS and UII come in and do the front end work.... XCI to consult with UII and RAS regarding level of detail needed for managing the allocation.
