

XSEDE Digital Object Repository (XDOR) via IDEALS

www.ideals.illinois.edu/handl...

IDEALS is the Illinois Digital Environment for Learning and Scholarship, an archival system run by the University of Illinois that provides persistent, reliable, access to research and scholarship materials from the University of Illinois. XSEDE uses IDEALS for long term storage and dissemination of key XSEDE documents and project materials. Most of the XSEDE documents archived within IDEALS are publicly discoverable by normal search engines such as Google. Access the XSEDE Digital Object Repository (XDOR) [here](#).
