

2016-11-08 Meeting notes

Date

16 Nov 2016

Attendees

- [Scott Wells](#)
- [Victor Hazlewood](#)
- [Tim Boerner](#)
- [Jim Marsteller](#)
- [Julie Wernert](#)
- [Gregory Peterson](#)
- [Gary Rogers](#)
- [Mike Pingleton](#)
- [Tabitha Samuel](#)

Agneda

- IPR1 (project report) update
- Process improvements
- Networking: Request from Dell for routing table and ACL length on WAN network devices at supercomputer centers (note sent to Tim)
- XSEDE software.xsede.org website change, now called XCSR
- Cloud discussion
- Discussion of coordination with other XSEDE divisions, specifically, XCI and RAS
- Mgr coordination

Discussion items

Time	Item	Who	Notes
	IPR1 (project report) update	Scott	Informed managers that we have all the input for the report and it has been put together and turned over to Greg for review.
	Process improvements	Scott	Reminded everyone to add any improvements they had to the google document that Ron Payne pointed to in his e-mail. Asked managers to enter process improvements for XSEDE that were implemented in this reporting period (Sept and Oct). This is a metric in the program office that Ron needs to keep track of XSEDE project-wide.
	Networking: Request from Dell for routing table and ACL length on WAN network devices at supercomputer centers (note sent to Tim)	Victor	Dell sent a note to Victor asking for input
	XSEDE software.xsede.org website change, now called XCSR	Victor	Reminded everyone that the new name is XCSR
	Cloud discussion (from previous)	Victor	Infrastructure items like logs and configuration need to be defined.
	Discussion of coordination with other XSEDE divisions, specifically, XCI and RAS	Victor	Suggested that we should be communicating with the other XSEDE divisions. Victor will look into joining some of the other division calls to coordinate and keep doors open and be proactive with changes, new developments, etc.
	Mgr coordination	Victor	Completed the SP checklist reviews. If interested you can see them here: https://software.xsede.org/use-case-components-sp

Action items

- Victor Hazlewood Tim Boerner, respond to Dell about routing table, etc.
- [Victor Hazlewood](#) check with other XSEDE groups (e.g., RAS and XCI) about joining their regular calls
-
