

SP Software Meeting 3/13/2017

Attendees:

Lisa Giame, LSU

Feng Chen, LSU

Eric Wiggins, LSU

JP Navarro, XSEDE

Dave Carver, TACC

Trevor Cooper, SDSC

Derek Simmel, PSC

Meeting Minutes

Announcements

- Reminder: Deadline today for technical papers for PEARC'xy conference. See <http://www.pearc.org/> and the [call of participation](#).
- SSO Hub now requires two factor for login. Going to make this permanent. XSEDE mgmt. approved Duo for one more year (at least)

Software/Services/Engineering Activities

- Reminder of recent XSEDE tested software released and mention of the latest:
 - Recent: For those with Science Gateways the [SDIACT-187 Incremental gateway_submit_attributes fixes and enhancements](#)
 - Recent: A new XDCDB API [SDIACT-216 Improve XDCDB security and read/update access with a new RESTfull API](#)
 - New: a new activity for xdfinfo was just completed and a deployment plan is being developed and will be sent soon
 - Latest version of Globus Toolkit is version 6.0.5 (linked to latest)
 - Latest version of Globus GridFTP is version 6.0.3 (linked to latest)
 - Latest version of XSEDE version of GSI-OpenSSH 7.1p2f-9 (linked to latest)
 - Activity working its way to activity launch for non-allocated L2/L3 SPs to be able to access the SSO Hub to allow users to login to SSO Hub to get to L2/L3 resources

SP Coordination

- Stampede 2 June 1, 2017 target production date. Starting integration process with TACC
- Victor will be circling back on the recent SP checklist reviews and review the outstanding action items. Contacting SPs about this.
- New SPs joined XSEDE Federation/SP Forum
 - Science Gateway institute joined XSEDE Federation
 - Trying to get all SPs level 1-3 to have an entry in XSEDE RDR

Open Discussion (as time permits)

JP asked if Stampede2 going to coexist with Stampede1. Dave said it is a rolling upgrade and will coexist for a period of time. There will be an RDR entry for Stampede2. Victor will double check with Chris on Stampede2 integration with XSEDE.
