- Jim Marsteller
- Julie Wernert

Agenda

- Changes for IPR6
- Operations PY8 Non-FTE budget (hardware/software)
- Reminder: the XSEDE Quarterly Meeting is Aug 27-29
- Mgr Coordination

Discussion items

Time	Item	Who	Notes
5 min	Changes for IPR6	Scott	- L3 Templates are due to Scott by this Friday. - Some new look to the template, but should be a little less work for each group manager. - Scott will send a follow-up email with more instructions
5 min	Operations PY8 Non-FTE budget	Victor	- The funds for equipment for the rest of XSEDE2 should be set up in the budgets for PY8 and purchased in PY8. - There is a Google doc containing budget info. See the e-mail that Victor sent with the meeting minutes.
1 min	Reminder: the XSEDE Quarterly Meeting is Aug 27-29	Victor	Mgrs reminded to make travel arrangements now
3 min	Mgr Coordination	Jim	- Jim asked if we would ever be able to have Duo MFA for all users and use that as a requirement for changes to a person's portal profile page. - We discussed ideas and it will likely be too expensive to cover all allocated users (order 20,000). - However, we could request the portal be changed for authentication to allow use of Duo if a user is registered with Duo. So use MFA if the user has it set up but it would not be everyone so it keeps the cost manageable.
1 min		Tim	- Tim brought up about Laura sending a note out about any publications, recommendations, and process improvements that come from the various locations. - Group managers are supposed to put a note on the response to those items. - Tim had two specific items for DTS and Scott said go ahead and mark them as resolved.
