Meeting Notes:

Announcements

- PEARC21 recap:
 - GCS tutorial was good, panel on new systems was informative
 - Tabitha will find out about getting video of Globus tutorial available to SP software members
- IPR:
 - Reporting period has started
 - If SPs have items to report with regards to interaction with XSEDE in the May-July timeframe, please let Tabitha know.
 - OSN has started giving out start up grants.
- XCI updates:
 - GCS 5.4 check-in:
 - Delaware has it in production
 - Purdue: Will have it in production by the end of this year when Anvil is in production
 - RDR Updates:
 - Introduced Liz Pantalone, RDR developer
 - Liz gave a brief update of RDR changes
 - Existing RDR entries don't need to be edited
- Open discussion:
 - Delaware has a few allocations in, through AMIE
 - Working on the usage reporting piece, and INCA
 - Anvil expected in upcoming XRAC, got overflow from previous
 - Will have users on later this month
