- Important Dates
 - PY10 Plan and Annual Report – due 5/20/2020
- General Announcements– Kelly
- WBS area updates
 - Workforce Development - Linda
 - Identifying best practices to help organize for the future with the remote aspect.
 - Contingency Continuity Planning – Susan is deputy for WD; Rosie is for BP.
 - Training – Susan
 - HPC training was only course that wasn't completely online; Training is in good shape.
 - Multicast – can possibly use breakout rooms.
 - Alternating bi-weekly meetings topics: general topics and specific topics.
 - Student Programs – Rosie
 - Have to reformat some programming so that it can continue on Zoom.
 - Postponed XSEDE new user training at Cal State San Bernardino to May.
 - Advanced Computing for Social Change hoping to implement virtual approaches for those sessions at PEARC should that be needed.
 - Doing some research with students to identify what worked/didn't work with the online education.
 - Education – Kate
 - The faculty workshops for the summer (computational chemistry – mt. st. mary's college) – going to be remote; the workshop at Michigan State is cancelled; Wofford College would like to have a session this summer - intro to computational science – will be remote.
 - EMPOWER – spring students will submit progress report soon; for summer program, mentor applicants can submit how they will adjust to remote mentoring (updating their submissions); reviewing mentor and student apps starting Monday; targeting 5/1 to notify applicants.
- User Engagement – Bryan
 - About to send out emails to PIs and will do follow-up re: XRAC soon and follow-up with rejected proposals.
 - Deputy manager for Contingency Planning: Nicole Wolter.
- Broadening Participation – Linda
 - Went to Albany State and it was fruitful and they are waiting for a proposal – part of Florida – theme for their renewal in data science – would like to partner with us – exciting as it will allow for a broad reach to students.
 - Will identify how to reach students/faculty for PEARC once they know if it will be virtual or not.
- UII – Maytal
- Campus Engagement – Dana and Henry
 - Increasing work in sustainability.
 - Virtual residency nearly at 200 registrants; having planning sessions that are going well.
- General Discussion
