Agenda

- Discuss XSEDE supplement proposal. Google doc [here](#).
 - See Leslie's note below with requested target date of April 22nd. This google doc starts with XSEDE2 text, I think.
- XSEDE contributions to the COVID-19 HPC Consortium: Operations specifically to discuss
 - See Ron's note below.
- Status and discussion of two tickets about right to be forgotten. Tickets 114709 & 132570 (see Alex's recent note below)
 - Schedule a separate meeting to discuss; Since Illinois is the lead of XSEDE I suggest Alex lead this; this item is not to discuss the details of how to address the task, but to assign and determine a plan forward with our response to these tickets.
- Any work from home issues with Mgrs or staff?
 - Note that any staff with issues should attempt to address with home organization supervisor first
- Mgr Coordination

Discussion items

Time	Item	Who	Notes
5 min	XSEDE Supplement proposal	Greg	Greg gave guidance to just use the PY10 tasks and review and add text to be consistent with that and Greg, Scott and Victor can message based on that and any other guidance, budgeting or other changes.
8 min	XSEDE COVID-19 Consortium contributions	Greg	Greg said we should mention that high priority tickets were routed. The items XSEDE did for COVID-19 hpc consortium was work to make a proposal website and use the XRAS process for proposal reviews. Carman mentioned some tickets came through that were routed as high priority for that project.
1 min	Tickets on "right to be forgotten"	Victor	Tabled because of Alex's absence. Victor will get with Alex on this.
3 min	COVID-19 working issues	Victor	SysOps doing ok working from home; DTS the same; XOC has one person on site and rest working from home and rotating that onsite person; No problems with SecOps either
N/A	Mgr. coordination		None
