

2022-06-21 XCRI Team Meeting

- Juniata - Rich needs to circle back with Gerald Kruse - hopefully scheduling planning meetings for late July on-site meeting
- BOF - some pre-advertising to happen - Tabitha to coordinate with Rich on ad copy
- Transition - some iteration on a variety of reports for the transition
 - Identity and Access Management - some pushback from XSEDE program managers - for now, everything ends when XSEDE ends
 - Response - ACCESS makes a response - ACCESS EC will make a comprehensive list for service questions for transition
- SP Coordination - changes on the way, but for now tracking as well as expected
- Toolkits
 - Chris Martin - Automated OpenStack deployment guide developed - passed 1st test: <https://github.com/XSEDE/XCRI-Docs/pull/3/files> from <https://github.com/XSEDE/XCRI-Docs/issues/2>
 - 2 options for deployment - manual (Steve Bird) - Kolla/ansible (Chris Martin)
 - Space for planning guide (prior) / maintenance guide (how to maintain/update/upgrade)
 - Cornell (Steven Lee) and IU (Steve Bird) to review
 - Dimuthu - Exosphere issue with python/OpenStack - needed to downgrade python OpenStack SDK
- Epigenomics work with ECSS (Suresh) on track for demo at PEARC
