

2020-10-20 XCRI Team Meeting

- Engagements
 - Langston meet - we have recordings!
 - XDMoD responses out for response
 - Definitely be prudent about scheduling
 - Eric will write up a highlight
 - Doug Jennewein at ASU
 - UCF contact handed off to CEE and they are pursuing
 - KY - pick up thread with Vikram Gazula
- Outreach opportunities
 - Quarterly web review - Rick is leading
 - XSEDE booth at SC20 - Rich will reach out to External Relations
 - CanoPIE workshop lightning talk
- Toolkits
 - Query from JP on container tutorial - we can run with the Container Tutorial content in github
 - Mike Renfro to provide some pushes to wrap up his Champions Fellowship work
 - Updates to Virtual Cluster, general quality of life (non-default subnets)
 - 1.1 release and 2.0 release on the way for Virtual Cluster
 - 2.0 release of XCBC about ready to be marked and call good
 - Container Template
 - Sync up with Eric, as well as JP
 - Some interest generated at container tutorial at Gateways 2020
- SP Coordination
 - AMIE for SP's in a one-on-one
 - [SP software - presentations and recordings](#)
 - 2 baseline docs updated:
 - checklist - feedback from training and allocations, waiting on security
 - software & services baseline - needed a lot of changes, break out to allocatable/nonallocatable systems
 - RDR - storage/compute resources, what is actually required? RDR is actually overhauling
 - JHU meeting for kickoff
- Leftovers from last meeting
 - Software licensing - we will run with the XSEDE-recommended templates and licenses (Apache 2.0) unless compelled to by some external force (eg Cornell or IU or UTK legal)
 - XSEDE XCRI slack-a-ma-jig
- Reporting - IPR13 due 1st week of November
