  - PEARC22 upcoming deadlines
- XCI Updates
- Open discussion

## Notes:

- Announcements:
  - April 8th deadline for short papers, posters
  - April 29th deadline: Panels, BoFs
  - March quarterly: all areas presented their lessons learned during XSEDE. Will share SP coordination-related slides during the May call.
- XCI updates:
  - IPF: optional upgrade, available next month. A complete list of features will be detailed on the next call.
    - The software will be easier to install on multiple resources.
    - The template feature has been simplified.
    - Request for early adopters from this SP community. Please get in touch with JP and Shava if you would like to install this early at your site.
  - Updates to xdusage: Put on hold for the moment until ACCESS awards are announced.
- Open discussion:
  - Should INCA be running on Expanse?
    - Some tests are failing.
    - Trevor to put in a ticket to RACD to help fix some broken features.
